VISA Status: Skilled Work Visa (491) — *Authorised to work in Australia*

Portfolio: avijitchkrbty.github.io

SUMMARY

Senior technical writer and user assistance developer with 15 years of experience delivering documentation for enterprise software, cloud platforms, APIs, test and measurement hardware and software, and network technologies at SAP, Keysight, Oracle and Ixia. Expert in DITA, structured authoring, documentation governance and Information Mapping. Experienced in requirements analysis, user stories and Agile delivery, stakeholder workshops and AI-assisted documentation, with recent certifications in generative AI and AI fluency. Works extensively across Confluence, Microsoft 365, SharePoint and Teams, including building SharePoint pages and managing document access and permissions.

EXPERIENCE

Senior User Assistance Developer

SAP Labs India

08/2022 – 08/2026

- Delivered user guides, online help, API documentation, release content (What's New and release notes) and stakeholder-facing technical publications for enterprise cloud and SAP product lines
- Created and maintained DITA-structured content in IXIASOFT DITA CMS
- Led documentation governance and review cycles, ensuring consistency and quality across all deliverables
- Reviewed customer feedback from the help portal, agreed changes with the product manager and delivered them in the following release, earning positive customer feedback
- Used collaborative user assistance games with the team to build understanding of DITA compliance
- Collaborated with product managers, engineers and UX teams in Agile sprints to ensure accurate, timely documentation
- Analysed requirements before features were documented, wrote and refined user stories, and took part in backlog grooming and sprint planning
- Ran review meetings and workshops with stakeholders, and created process maps and workflow diagrams in Visio
- Used SAP AI Launchpad and UAi Booster extensively in day-to-day work, for reviewing notes and developing help portal documentation, and used AI tools to support workshops

CORE COMPETENCIES

- Technical writing
- User assistance development
- API documentation
- Structured authoring (DITA XML)
- Documentation governance
- Document and version control
- Information Mapping
- Requirements analysis
- User stories and backlog refinement
- Agile (Scrum) delivery
- Stakeholder workshops and reviews
- Training and game-based learning
- Process mapping
- AI-assisted content development

TOOLS & TECHNOLOGIES

- IXIASOFT DITA CMS
- MadCap Flare
- Adobe FrameMaker
- Confluence
- Jira
- Microsoft 365
- SharePoint (incl. page building)
- Microsoft Teams
- SAP AI Launchpad, UAi Booster
- Microsoft Visio
- Perforce
- Adobe Acrobat
- XML, HTML, DITA

CERTIFICATIONS

- ▶ Generative AI Fundamentals – Databricks Academy (Oct 2026)
- ▶ AI Fluency: Framework & Foundations – Anthropic (Oct 2026)
- ▶ Generative AI Mastermind – Outskill (Sep 2026)
- ▶ Information Mapping Certification
- ▶ Agile Writing Certification

Senior Technical Writer

Keysight Technologies

08/2017 – 07/2022

- Delivered user guides, online help, API documentation, release content (What's New and release notes) and stakeholder-facing publications for test and measurement hardware and software
- Worked closely with R&D and product teams to capture accurate technical detail
- Authored and maintained structured DITA XML content using MadCap Flare and Adobe FrameMaker
- Analysed requirements, wrote and refined user stories, and took part in backlog grooming and sprint planning
- Ran stakeholder review meetings and workshops, and created process maps and workflow diagrams in Visio
- Ran formal training sessions on using MadCap Flare
- Applied Information Mapping principles to redesign documentation architecture for improved usability
- Mentored and onboarded junior technical writers and drove process improvement initiatives across the documentation team

Technical Writer – HCM

Oracle India

09/2014 – 07/2017

- Delivered user guides, online help, API documentation, release content (What's New and release notes) and stakeholder-facing technical publications
- Documented Oracle HCM Cloud modules including Core HR, Payroll and Talent Management
- Developed and maintained structured authoring frameworks using DITA XML and Confluence
- Engaged stakeholders across product, engineering and QA to gather and validate documentation requirements

Technical Writer

Ixia Technologies

10/2011 – 09/2014

- Authored network technology product documentation using FrameMaker and Perforce version control
- Recipient of the Ixia India Value Award for Innovation

KEY ACHIEVEMENTS

- ◆ 15 years of technical documentation experience across SAP, Oracle, Keysight and Ixia
- ◆ Led structured authoring and DITA initiatives improving documentation consistency and usability
- ◆ Redesigned documentation architecture at Keysight using Information Mapping
- ◆ Mentored and onboarded technical writers while driving process improvements

PROFESSIONAL MEMBERSHIP

- ▶ Member, International Institute of Business Analysis (IIBA), 2026

AWARDS

- ▶ Ixia India Value Award for Innovation

STRENGTHS

- ✓ Stakeholder engagement
- ✓ Mentoring and knowledge sharing
- ✓ Documentation governance
- ✓ Process improvement
- ✓ Attention to detail
- ✓ Cross-functional collaboration
- ✓ Continuous improvement
